

tagaytay tour

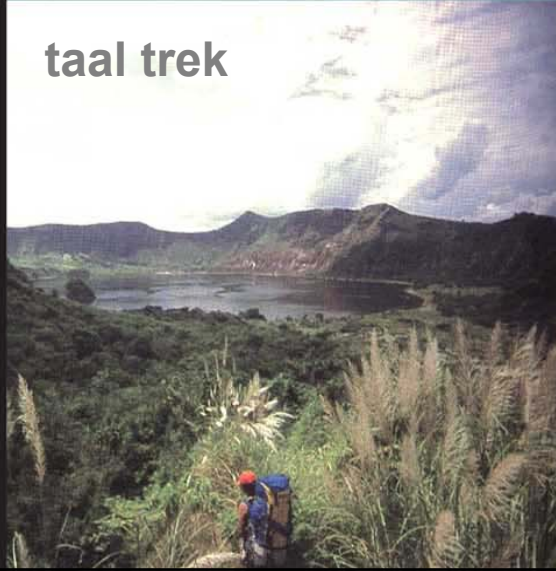

Tagaytay, located on a ridge 2,250 ft. above sea level, is a leisurely drive to the countryside 60 kms. South of Manila, past small coastal villages and towns; rice fields, tropical fruit orchards and coconut plantation.

From the heights of Tagaytay, enjoy the breathtaking sight of one of the world's strangest wonders – Taal Volcano, a volcano within a volcano and a lake within a lake.

This 2-hr drive stops briefly at the Las Piñas Church, site of the Bamboo Organ.
